

I enjoyed the product, but the service was not great. I would not buy this product again for that reason.

I loved this product and would recommend to a friend and buy again!

There is nothing like this product, I have been working in this space for a long time and never encountered something like it. I worked great for me, the best I've ever seen.

There is something wrong with this product that I can't put my finger on. I just get a bad vibe from it, so I will not buy again.
